B YUVA GANESH PANDY

+91 8807574092 | b.yuva5001@gmail.com | LinkedIn: B YUVA GANESH PANDY | GitHub: B-YUVA-GANESH-PANDY

PROFESSIONAL SUMMARY

Aspiring AI/ML Engineer pursuing a B.E. in Artificial Intelligence and Machine Learning, with hands-on experience in Python, machine learning, deep learning, computer vision, data analysis, and Generative AI. Developed and evaluated CNN, LSTM, Logistic Regression, and Random Forest models across medical image analysis, speech recognition, credit risk prediction, and character recognition. Experienced with TensorFlow, Pandas, NumPy, OpenCV, Power BI, Tableau, Git, and Jupyter Notebook, with internship exposure to applied machine learning and data-driven projects.

EDUCATION DETAILS

Course Name	Institute Name	University Name	Year of Passing	Score Details (%/CGPA)	Course Type
B.E. – Artificial Intelligence and Machine Learning	Sri Sairam College of Engineering, Bengaluru	Visvesvaraya Technological University (VTU), Belagavi	Expected 2027	CGPA: 7.83	Full-time
12th Grade	Kendriya Vidyalaya MEG & Centre, Bengaluru	CBSE	2023	67%	Full-time
10th Grade	Kendriya Vidyalaya MEG & Centre, Bengaluru	CBSE	2021	75%	Full-time

PROJECTS UNDERTAKEN

Ultrasound Liver Disease Detection — Developed a CNN-based computer vision model for detecting liver abnormalities from ultrasound images; performed image processing and model evaluation.

Technologies: Python, TensorFlow, OpenCV, CNN

AI-Powered Resume Generator — Developed an AI-powered resume generation system using Generative AI to create ATS-friendly resumes from text and voice input.

Technologies: Generative AI, Python

Credit Scoring Model — Developed a credit risk prediction model using Logistic Regression and Random Forest; performed model training and evaluation for data-driven risk prediction.

Technologies: Python, Machine Learning, Logistic Regression, Random Forest

Speech Recognition System — Developed a CNN/LSTM speech recognition model using MFCC features; applied feature extraction and deep learning techniques for speech data processing.

Technologies: Python, CNN, LSTM, MFCC, TensorFlow

Handwritten Character Recognition — Built a CNN-based character recognition model using the MNIST dataset; performed image processing, classification, and model evaluation.

Technologies: Python, CNN, MNIST, TensorFlow

INTERNSHIP EXPERIENCE

Machine Learning Intern | CodeAlpha | May 2025 – Aug 2025 | Lucknow, UP

• Developed and fine-tuned machine learning models for pattern recognition and data-driven insights.

• Used Python, TensorFlow, and data preprocessing techniques to improve model performance.

• Contributed to an applied AI project involving ultrasound imaging and liver health analysis.

Green Intern | IMIB Green Skills Academy | June 2025 – Sept 2025 | Bengaluru

• Collaborated with cross-functional teams on green skills development initiatives.

• Assisted in data collection and analysis for eco-impact assessment projects.

TECHNICAL SKILLS

Programming Languages: Python, C, SQL

Machine Learning & AI: Supervised Learning, Unsupervised Learning, Model Training, Model Evaluation, AI Model Deployment, Generative AI

Deep Learning & Computer Vision: CNN, LSTM, Image Processing, MFCC, OpenCV, TensorFlow

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn

Data Analytics & Visualization: Data Cleaning, Data Analysis, Tableau, Power BI

Web Development: HTML5, Front-End Development

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, Arduino IDE

Soft Skills: Team Collaboration, Problem-Solving, Client Relationship Management, Fast Learner

STRONG SUBJECTS

Artificial Intelligence, Machine Learning, Deep Learning, Computer Vision, Data Analytics, Python Programming, SQL, Generative AI

CERTIFICATIONS

• **Introduction to CyberSecurity** — Infosys Springboard — Aug 2025

• **Fundamentals of Information Security** — Infosys Springboard — Aug 2025

• **Fundamentals of Cryptography** — Infosys Springboard — Aug 2025

• **Network Fundamentals** — Infosys Springboard — Aug 2025

• **AI Skills Passport** — EY & Microsoft — 2025

• **GenAI Powered Data Analytics Job Simulation** — Tata (Forage) — Aug 2025

• **Power BI using DAX and AI** — Vodafone Idea Foundation (VOIS) — Aug 2025

• **Build Reports and Dashboards in Power BI** — Vodafone Idea Foundation (VOIS) — Aug 2025

• **Power BI for Data Analysis** — Vodafone Idea Foundation (VOIS) — Aug 2025

• **Advanced Course on Green Skills & Artificial Intelligence** — Skills4Future Program, Edunet Foundation (Supported by AICTE & Shell India) — Jan 2026 – Feb 2026

ACHIEVEMENTS

• 2nd Prize – Ideathon, Pradyut Parva – 2 (IEEE Day 2025), Sri Sairam College of Engineering (2025)

• 1st Prize – Idea Presentation, Code Fusion – PMC Tech College of Engineering Alumni (2024)

• 1st Place – Ideathon, Pradyut Parva 2K24 (2024)

• Runner-up – Paper Presentation, Technqvanza 2024 (2024)

• Publication – Engineering the Future: The Virtual Role of Science (Pyrolysis Oil) (2024)
